EDUCATION

London Business School Expected 2032
Ph.D. in Finance

UC Berkeley August 2023 – August 2024
Master of Analytics, GPA: 3.77 (IEOR Merit Scholarship $20k)

UC Berkeley June 2020 – May 2023
Bachelor of Arts in Economics and Data Science, GPA: 3.60

Relevant Coursework: Financial Econometrics, Techniques of Data Science, Data Structures & Algorithms, Design of Databases, Stochastic Processes, Asset Pricing & Portfolio Choice, Risk Modeling.

WORK EXPERIENCE

Amazon June 2024 – July 2026
Economist Apprentice *Seattle, WA*

- Deployed an economic AI agent to automate analysis and data querying using credibility scoring techniques, which increased time efficiency by as much as 90%.
- Collaborated with Amazon Scholars on a prototype Bayesian hierarchical forecasting and time-series foundation model for global sales, achieving forecasting errors of 1% or less.
- Estimated causal impacts of +$10MM to optimize regulatory initiatives implemented for worldwide sellers utilizing econometric methods such as double machine learning and Bayesian structural time series.
- Personally managed ETL data pipelines for a worldwide product substitutability model.

RESEARCH PROJECTS

Jump Comovement in Industry and Ownership Networks *Preliminary*
Shows that residual negative price jumps are not independent across firms: a stock is more likely to jump in weeks when its industry peers do and, separately, when its nearest neighbors in a holdings-based embedding do.

A Comparative Analysis of Machine Learning Outlier Detection Methods for Robust Causal Inference
Presented at Yale Pre-Doctoral Economics Conference 2026. Compares novel outlier detection methods to reduce treatment effect bias. The models achieve over 90% accuracy in outlier detection and accurate treatment effects after removing outliers.

SKILLS & OTHER

Modeling: Time-Series Forecasting, Foundational Models, Causal Inference (A/B Testing), Price Optimization

Tech Stack: Python (PyTorch, PyMC, scikit-learn, pandas), SQL, R, AWS, Git, Tableau

Athletics: Cal Men's Rowing (2020–2024), National Champions in 2022 and 2023, Persistence Award 2024.
